PRESS RELEASE

NUVOLT CORPORATION ANNOUNCES THE SIGNATURE OF A FINANCIAL CONTRIBUTION AGREEMENT WITH THE INDUSTRIAL ASSISTANCE PROGRAM WITH THE NATIONAL RESEARCH COUNCIL CANADA.

Levis, September 25, 2008. Mr. Jacques Dion, President and CEO of **Nuvolt Corporation Inc.** (TSX-V: NCO) is pleased to announce the signature of a contribution agreement with **The National Research Council of Canada** within the framework of its Industrial Research Assistance Program (NRC-IRAP).

The agreement, which is to begin in September 2008, covers the development of the new range of Nuvolt technologies in the fields of monitoring and neutralization of the leakage currents. The National Research Council has earmarked up to a three hundred and fifty thousand dollars (350,000.00\$) contribution to this project over one year.

"The signature of this agreement is particularly significant for our company as it is at a key period of its history," declares Mr. Jacques Dion, president and CEO of Nuvolt Corporation Inc. "As we are about to complete the development of the Nuvolt solutions, it is certain that such a collaboration comforts us in our orientation and commitment." Mr. Dion concludes.

About NRC and its Industrial Research Assistance Program

NRC is a Program of the Canadian Federal Government.

About Nuvolt Corporation Inc

Nuvolt Corporation is specialized in monitoring electrical networks in livestock farm facilities. Its products are used to detect, analyze and neutralize leakage current present in the animal's environment and to notify user of network failure, at any frequency.

Its main products are the "Potential Equalizer", the "Relax" ground fault detector and SVF-VSD filters to eliminate harmonics. They are presently in use on dairy and pig farms.

Nuvolt Corporation holds patents on products and technology serving its current markets and patents are pending on products aimed at serving not only farms but also electrical network monitoring of residential, commercial, institutional and industrial markets. **Agrivolt Inc.** is a US subsidiary.
