

PRESS RELEASE

(FOR IMMEDIATE DISTRIBUTION)

Nuvolt Corporation announces the reaching of *SMARTSCAN* distribution agreements for the U.S. dairy farm sector

Levis (Quebec), February 17, 2010. Nuvolt Corporation ("Nuvolt") (TSX-V: NCO) announces that following the launch of **SMARTSCAN** at the World Ag Expo in California, product distribution agreements have been reached for the U.S. dairy farm sector.

The launch of **SMARTSCAN** was accompanied by major promotional activities. This allowed Agrivolt, a subsidiary of Nuvolt dedicated to the agriculture market, to reach agreements with major distributors in highly concentrated dairy areas of the United States.

"The distributors that signed the agreement are among the leading farm equipment distributors in the United States. We estimate that over the next three years, these agreements will generate important sales for our subsidiary Agrivolt Inc.," mentioned Jacques Dion, President and CEO of Nuvolt. "What distributors found especially interesting is the ability of **SMARTSCAN** to predict an electrical failure, thereby facilitating preventive maintenance on equipment, as well as the user friendly manner in which **SMARTSCAN** conveys information," concluded Mr. Dion.

Nuvolt expects to deliver the first **SMARTSCAN** units in June 2010.

About Nuvolt Corporation

Nuvolt has developed a specialized expertise in the management of electrical failures, power quality, the detection and neutralization of leakage current, as well as electrical network monitoring systems.

Nuvolt has devoted a great deal of energy to and has made major investments in the development of the **SMARTSCAN** project. The **SMARTSCAN** system is a user-friendly product that can be distributed by independent distributors active in specialized sectors including the farming, commercial and industrial sectors.
